# Places Pedia

The user could search by places, then, save the info of their favourite place on the database and maybe add a comment. Whether visited.

The user will be able to see the image, a little description of the place and save as place of interest.

# MVP

**- This application will allow user to have its own account. (login)**

Wendy Writer, CA

**Display information about the City of interest for the user depend on its search**

**List the saved places by the user.**  
**Add a comment about the city.**

# Future Development!

Rating cities

Create more cities if any missing.

Add gallery of images

## Furure

Add tours.

Add links to groups like meet ups

Add turistic information.
